## REPORT OF THE TRUSTEES

We are pleased to present before you the **ANNUAL REPORT** of **SAHARA MUTUAL FUND** for the year ended March 31, 2009.

### Overview of Debt Markets in 2008-09

The year was one of the toughest for the world economies since World War II. We saw centuries old institutions failing, one of the biggest corporations going bankrupt, millions losing their job worldwide. The central banks across the world cut policy rates which apart from bringing some relief to the financial system, fuelled commodity prices of crude, steel, gold and food prices. Inflation touched a thirteen year high of 12.63%. Banks suffered losses on account of mark-to-market their investment portfolios which called for fresh capitalization of various banks. The economic activity came to literal stand still. In India, corporate started to feel the heat with their drawing limits either curtailed or not renewed due to the fear of NPAs and future prospects. To counter this situation RBI kept on easing policy rates like CRR and Repo in an attempt to make the credit availability on easy terms. The gilt prices also witnessed volatile trend during the year mirroring the liquidity conditions.

### Overview of Equity Markets in 2008-09

The equity markets in India and across the world went through a phase of turbulence in 2008-09. Indian equity markets, which were integrated with the world financial system, could not escape and closed 2008-09 with a loss of 36%.

At the beginning of the financial year high double digit inflation due to high commodity and oil prices prompted RBI to increase interest rates to 9.00%. High inflation coupled with high interest rates began to eat into the profitability of the corporates especially those belonging to the SME segment. As the global financial crisis deepened, oil & commodity prices corrected. The collapse of Lehman Brothers only exacerbated the ongoing crisis. India too was impacted by the global economic & financial crisis. After clocking annual growth of 8.9% on an average over the last five years (2003-08), India was headed for a cyclical downturn in 2008-09 as the full impact of the crisis began was felt in the third quarter, which recorded a sharp downturn and registered a low 5.5% GDP growth.

To counter the down turn the Government of India announced three fiscal stimulus packages along with RBI easing the monetary policy by reducing its benchmark rates to less than 5.00% These stimulus packages were on top of an already announced expanded safety-net program for the rural poor, the farm loan waiver package and payout following the Sixth Pay Commission report, all of which too added to stimulating demand. As the economic indicators begin to point towards a recovery, we witnessed equity markets gaining some of the last ground towards the end of the financial year.

## 1. Scheme Performance, Future Outlook and Operations of Sahara Wealth Plus Fund

Performance as of March 31, 2009	1 year	Since inception	Inception date
Sahara Wealth Plus Fund (%) – Variable Pricing Option	(34.87)	2.50	01/09/2005
Fixed Pricing Option	(35.32)	1.81	
CNX 500 (%)	(40.02)	6.47	

As on March 31, 2009, the scheme had invested 67 % of its net assets invested in equities and the balance 33 % in net current assets. There has been no dividend declared during the year 2008-09 under the scheme.

### Market Outlook for 2009-10

#### Debt Markets

The GDP growth rate is projected at 7.0 – 7.5% for the year 2009-2010. With congress Government getting clear mandate, we may expect the reforms to take priority. This growth can be achieved by fiscal stimulus, innovative public spending, comfortable external payments and prudent measures could stimulate demand. The banks may start lending rather than investing in sovereign debt. Considering the widening fiscal deficit situation, we may expect an upward revision in the borrowing programme. We expect the Ten year benchmark yields to harden further in the second half of the fiscal year. On the back of weakening fiscal situation, we expect the yield curve to move up in the year ahead.

#### Equity Markets

In the last year we weathered an unprecedented global liquidity crisis that led to a sharp slowdown in growth. While India was on a better wicket, we could not remain entirely immune to such a severe global contagion. Fortunately, governments internationally were very proactive and large doses of stimulatory medicine have been delivered. India's

growth is amongst the fastest in the world and with a locally driven economy - consensus estimates for India's GDP growth range from 5- 6% vs. projected contraction in the world GDP by 1-1.5%. The fiscal year 2009-10 is likely to be one where specific sectors and company performances could be much better than broader market indices. The challenge will be to pick these stocks and sectors ahead of the market. The policy initiatives by the new government would be critical for a pick-up in investments in the short-term as well as for overall growth in the economy. The key would be to remain disciplined and focused on quality and well researched investments to deliver healthy results over a long term.

## 2. Brief Background of Sponsor, Trust, and AMC Company

## AUDITORS' REPORT TO THE TRUSTEES OF SAHARA MUTUAL FUND

1. We have audited the Balance Sheet of Sahara Mutual Fund – Sahara Wealth Plus Fund (the "Scheme") as at March 31, 2009, and the related Revenue Account for the year ended on that date, annexed thereto. These financial statements are a responsibility of the Trustees of Sahara Mutual Fund and the management of Sahara Asset Management Company Private Limited (the "Management"). Our responsibility is to express an opinion on these financial statements based on our audit.
2. We have conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit. The Balance Sheet and the Revenue Account referred to above are in agreement with the books of account of the Scheme.
4. According to the explanations given to us and read with point no. 8.4 of Schedule 10 to the Financial Statements, appropriate amounts have been transferred by the scheme to Unit Premium Reserve Account and Income Equalization Account the basis for which has been changed in the current year from Management estimates to the best practice followed by the Industry.
5. In our opinion and to the best of our information and according to the explanations given to us:
  - 5.1 The Balance Sheet and the Revenue Account together with the notes thereon give the information required by the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and amendments thereto, as applicable and give a true and fair view in conformity with the Accounting principles generally accepted in India
    - i) in case of Balance Sheet of the state of affairs of the scheme as at March 31, 2009 and
    - ii) in case of the Revenue account, of the deficit for the year ended on that date.
6. The Balance Sheet and the Revenue Account together with the notes thereon, have been prepared in accordance with the accounting policies and standards specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and amendments thereto, as applicable.
